L-3 Security & Detection Systems' Cargo Solutions Featured at the Third Annual WCO Technology & Innovation Forum in Kuala Lumpur

WOBURN, Mass., February 14, 2012 – L-3 Security & Detection Systems (SDS) is the corporate sponsor of the Third Annual World Customs Organization (WCO) Technology & Innovation Forum to be held in Kuala Lumpur, Malaysia, at the Renaissance Marriott from March 6 through March 9, 2012. This forum is a premier event where customs executives, government officials and commercial providers meet to explore emerging trends and requirements in cargo security. This year, the event will focus on the efficient use of security technology at borders. To learn more about the event, please visit www.TI Forum 2012.com.

“L-3 is pleased to support the WCO gathering of thought leaders by being the corporate sponsor for the second time,” said Thomas M. Ripp, president of L-3 Security & Detection Systems. “We have been making significant investments in new mobile inspection and radiation detection solutions for the industry’s most demanding cargo applications, including our recently announced CX-Mobile™ G3 and CR-Mobile™ offerings. These two next-generation products provide robust and high-throughput detection capability for customs and security personnel to confidently screen cargo at borders, ports and airport facilities.”

Paul Simpson, senior director of L-3 SDS' cargo product line, will present a keynote address on border security strategies on Tuesday, March 6 at 10 a.m. (MYT) in the Renaissance Marriott – Ballroom A. L-3 SDS will also host a breakout session on Wednesday, March 7 at 12 p.m. (MYT) in the Renaissance Marriott – Function Room 5. Interested parties are invited to visit the L-3 SDS exhibit at Stand 20/21, or contact Christina Wee at Christina.Wee@L-3com.com to set up an appointment.

L-3 SDS offers both configurable products and customized solutions to address unique, state-of-the-art cargo requirements. L-3's new third-generation CX-Mobile G3 brings high-energy cargo inspection to any location in a road-ready vehicle with the lowest life-cycle costs available. Its new CR-Mobile cargo radiation detection system combines the highest radiation detection performance possible with a very low false alarm rate. In addition, L-3 SDS offers a comprehensive portfolio of cargo platforms that includes the CX-Pallet™, CX-Portal™ and CX-Gantry™. With the ClearView™ Workstation, data from multiple X-ray systems, radiation

detectors and a host of other sensors can be seamlessly integrated to maximize operator productivity and effectiveness.

About L-3 Security & Detection Systems

With more than 50,000 systems deployed and supported around the globe, L-3 Security & Detection Systems (SDS) is a leading supplier of security screening solutions. For more than 30 years, L-3 SDS has developed and manufactured cutting-edge products using advanced technologies that include 3-D computed tomography; automated, conventional and high-energy X-ray; radiation detection; active millimeter wave imaging; metal detection; and energetic trace explosives detection.

L-3 SDS solutions are used by the aviation and transportation industries, regulatory and customs authorities, government and law enforcement agencies, and commercial and other secure facilities. Applications include the screening of people, vehicles, baggage, cargo and packages for explosives, firearms, drugs, contraband and corporate assets. To learn more about L-3 SDS, please visit the company's website at www.L-3com.com/sds.
